"Knowledge is power"

A Building History of Weston High School

In 1854, $150 was appropriated by the Town to outfit a room in the Town House in which high school classes were to be held. In 1878, due to the increase in the number of high school students, a high school was built on the site of the present building. In 1889 the three-year course was extended to a four-year course, and in 1892 the general course was supplemented by an approved College Preparatory course. Still more expansion led to the building of another high school in 1895. This is now the present Grammar School building. It was equipped with an Assembly Hall, located upstairs, and a laboratory in the basement. In 1914 the present Assembly Hall and Shop were added. In 1932 the high school and junior high classes moved into the present building. This was the first step toward the six-year high school now in the process of evolution in Weston.

Bettylou Bolster — Lasalle Junior College

"Bet" — "The Navy's the best"

Arriving three minutes before her sister, gay little Betty Lou was half of a valentine to her parents. Bet's pleasing smile and charming personality make her one of the most popular girls of the class. Among Betty's likes are: tall, dark, and handsome Navy Men: all sports, especially sailing, and dancing. Bet's pet peeve is listening to the Hit Parade *every* Saturday night. All during the basketball season Betty devoted her entire enthusiasm to keeping score of the games. We are positive that Bet is going to be a huge success and we wish her all the luck in the world at Lasalle Junior College.

Sallyann Bolster — Lasalle Junior College

"Sal" — "Oh stop!"

The other half of the valentine was none other than Sally Ann, who was born in Rutland, Vermont on February 14, 1928. Her charming disposition and smiling face have won her many friends. Among Sal's likes are: all sports, especially sailing and tobogganing; sitting on the floor by a roaring fire; dancing and piano lessons. Whenever we hear "Stardust" or "Make Believe" we know that Sal is requesting them, for they are her two favorite songs. Sal is so well liked by her many friends and teachers that we are certain she will not only be a huge success in what she undertakes but also a pleasant addition to Lasalle Junior College, which she is planning to enter.

Norman Clive Jr. — Army

"Buddy" — "Oh come on, Jack"

Lord knows when "Buddy" was born, but we know he was. We're sure of it because we've seen his bright humor around school, and of the noise he is capable of making—it was because of this that he was elected the class of forty-six's loudest.

The fact that he was elected the class's shortest has not stopped him from being a key in Weston's football and basketball teams. He quartered Weston's undefeated football team; and on the basketball team that went to the garden his shots from beyond the foul line were invaluable.

Good luck "Bud!!"

Ann Lois Colpitts — Burdett College

"Annie"

Well known as "Annie", this carefree lass has been a prominent member of our class since 1933. Born August 22, 1928, her enjoyment of piano stylings by Frankie Carle and Carmen Cavallero constitutes a good reason why she is our class musician.

She dislikes eggs, too much make-up, and homework. But watching hockey games and reading sport columns are two of "Annie's" favorite pastimes. (Keeping posted on certain Marlboro boys might well be called a third pastime.)

We are sure that "Annie" will make a good secretary after completing her course at Burdett College.

Lorraine Beth Compton — Art School

"Rain" — "Oh! I haven't got time."

Lorraine, commonly known as "Rain" or "Stormy Weather", was born in Waltham on November 6, 1928 and joined our merry group in the first grade. Her amazing ability to draw has always been one of her greater assets, one which will prove of much importance in her future career as fashion illustrator. Throughout grammar school the attention of "Rain's" classmates was constantly focused on examples of her talent.

Other than being an excellent artist, "Rain" spends a great deal of her spare time reading up on the Boston Olympics Hockey team or she will be found at the games cheering the players on to victory. Her likes include: white bobby sox, red hair, and the color green, but definitely not her weight. Her hobby consists of collecting pictures of the movie star, "Dane Clark." With her outstanding originality and drawing talent we are sure "Rain" will be a success in her ambition.

Frederic Albert Crafts, Jr. — Harvard

"Mouse" "Foxy" "Freddie" — "Just one more shot, Coach"

Freddie was a Christmas present to his parents in 1928. He went to Meadowbrook until they ran out of grades, then joined us in the 7th grade. Always an "A" student, Freddie also has done his share on the athletic teams. He was one of the two boys to play through every game of our two perfect basketball seasons. Freddie was captain of last year's Tech Tourney team which went to the finals against Provincetown high. Freddie plans to go to Harvard next year. Here's wishing you the best of luck in whatever field you may enter.

Barbara Elizabeth Hanney "I have to wait for Ginny".

"Bets" was born in Waltham September 5, 1928, and started school with us in the first grade at which time she showed an interest in sports and athletics by climbing up the wall near the Primary Building.

Her pet peeves are her naturally curly hair and restraining teachers. She has a weakness for McIntosh apples and afternoons at Carver's with Ginny.

"Bets" has always been a lover of dancing. She took tap dancing lessons for a good many years and once thought that she might make this dancing her career, but she has since changed her mind and wishes to become an airline hostess.

Good Luck at Mt. Ida, Betty!

Beverly Anne Hastings Colby, Jr.

"Wiggles" "Hey, Stinky"

Beverly, known to her classmates and friends as "Wiggles", joined our happly little class in her Sophomore year. Although she was born in Arlington, Mass. and has lived in many parts of the country she prefers Weston to them all. Bev. has made herself very popular and knows (perhaps, shall we say) everything that is going on, whether it is about the school or the pupils.

Her athletic ability is very well known. In the fall she was out there on the hockey field adding to the score and in the winter you could find her on the basketball court.

Her ambition is to go to Colby Jr. and in the near future to become a medical secretary. We are all sure that Bev. will succeed in this ambition.

Myrtle Littlefield

"Myrt" "She blames me for everything"

Myrtle was born on May 19 in Stoughton, Mass., and entered Weston High in her junior year. With her she brought a great sense of humor with which to entertain the class.

All sports appeal to her and she was a member of the second team basketball in her senior year. She likes music, dancing too of course, skating and shorthand. She is an excellent typist, so her ambition to succeed in whatever she does should be easily fulfilled.

"Myrt's" favorite pastimes are listening to the radio and skating. Her pet dislikes are homework, dentists and people who show off. We all wish you luck Myrtle and keep that sense of humor.

June Martin "Juni"

"Girls, do you really think this blue bathtub will go with my green bathroom?"

June was born in Waltham, Mass. on December 23, 1928, and she has been struggllling along with us ever since the first grade.

"Juni" has a very pleasing personality and is just bubbling over with fun and laughter. Ask "Juni" sometime to give you her definition of jitterbugging and jazz for she loves both. Listening to the soft music of Guy Lombardo's orchestra and dancing to Viennese waltzes are among her many likes.

Her pet peeves range from liver to people who lose their temper.

With her knowledge of typing and shorthand, we know she will succeed. We all join in wishing you the best of luck "Juni"

Charles Morreale "Moe"

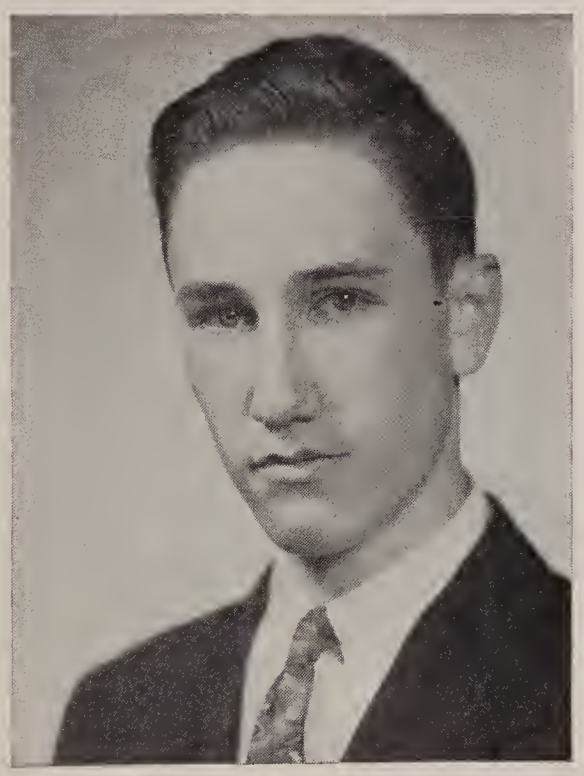
"Oh, if I only had a million dollars"

On April 5, 1929, in the Waltham Hospital was born a boy by the name of Charles Morreale, destined to be known as just plain "Moe".

"Moe" has been with us ever since the second grade where he was a real spark plug.

Although most of his waking hours find him working, he does have some spare moments which are usually spent in amusing his audience. His singing of the radio commercials for instance, make him a most interesting fellow to have around.

"Moe's" plans for the future are not definite as yet, but of one thing we are certain, with his smiling face and pleasing personality he will be a great success in what ever he attempts.



Frederick Dwelley Newell M.I.T.

"Fred," "Edgit." "Over at Tech they—"

Edgit was born on a frosty December 28th in 1928. Fred joined us in the Freshman year and is one of those "Lincolnites". Fred, being one of those scinetifically minded persons, has had no trouble in deciding what college he is going to. He often breaks up Math class by saying "Over at Tech they—", and thus getting Miss Green going on some subject other than Math. Fred has had time to go out for baseball and basketball, this year is trying his hand at pitching. Besides these Edgit is a member of the staff of the Yearbook where he is also photographic editor. If you don't find him in the office calling up Mr. Waid, he is probably directing the photographer somewhere about the school. As he is one of the slower drivers in the class we feel that we can safely say "Good luck, Fred!".

Walter Henderson Palmer — Harvard

"Uncle" Walter — "That's a joke, son."

"Walt," Dizzy."

Walter entered the Weston Schools in 1934 and has in the past twelve years been one of the outstanding students in extra-curricular activities. As a sophomore he was elected president of his class. At that time he showed considerable ability in conducting class meetings. In baseball Walter is often referred to as "Slugger", and is an excellent fielder. His skills, however, are not limited just to baseball for he has been active both in hockey and basketball. He was one of the members of the basketball team which made such a fine showing in the Boston Garden.

We all feel sure that Walter will have little difficulty in climbing the ladder to success.

Arthur Lyman Parson — Harvard, Army

"Lymie"

"What someone else can do well I can do much better."

October 7, 1927 marks the beginning of the career of Arthur Lyman Parson known to everybody as "Lymie." "Lymie" joined us in the freshman year, when he was most often seen riding his English bicycle all over Waltham and Weston.

In his senior year he became known as the man with the motor scooter. He was elected editor-in-chief of the yearbook and has done a grand job.

Lyman is the type of fellow you can't help liking because he doesn't know the meaning of the word "no". His plans for the future point to Harvard, but with things as they are he will probably help Uncle Sam before he enters college.

Whatever Lymie does, or wherever he goes, we can be sure that with his calm and quiet ways he will be a huge success.

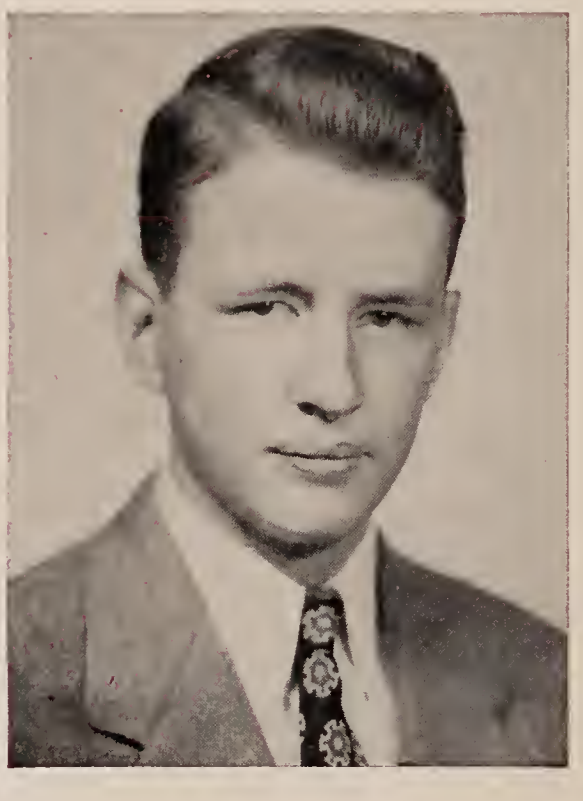
Editor '46



Calvin Coolidge Patriquin — Architectural School

"Pat"

"Pat" was born 307 years after the Pilgrims landed,—in other words, December 21, 1927. Pat strolled into the first grade in December 1934 without even being noticed at all. For eleven years he remained unnoticed until, in his Senior year, he was voted the handsomest boy in the class. Pat has worked fairly hard in his studies and is frequently on the school Honor Roll.

During the War, Pat was a very busy fellow for, when not in school, he was either working at the Potter Press in Waltham or trying to put some life in one of his old cars.

His ambition shows that he will be successful in anything he attempts. Good luck, Pat!

Lois Rinehart — Massachusetts State

"Rocky" — "Got to go and feed my horse now"

Lois arrived in this world at Greensburg, Pennsylvania, on June 25, 1928. She entered W.H.S. in the fifth grade and has favored us with her dynamic personality ever since.

Lois's athletic ability has been well demonstrated on the hockey field and basketball court. She has been one of the outstanding guards ("Sally, may I please play forward?") on the basketball team for the last two years.

Lois informs me that she likes only, horses-horses-horses! (and food in general). Her expressed desire is to go to Massachusetts State, and in the future raise thoroughbred hunters on her 150 acre farm in Arizona.

Joseph Everett Studley II — Boston University

"Joe" — "For heaven's sake turn off the ignition"

Joe joined the class in the third grade and has made himself heard ever since. His ambition to be a business man has been encouraged particularly during the last two years. As chairman of the Junior Prom in 1945, and this year as class president, president of the student council and business manager of the year book he has had plenty of scope for the development of the executive ability which he will need in the chair business.

"Joe" likes to *eat* and drive cars. He dislikes inquisitive women and homework.

As a good football player and a hard hitting first baseman, "Joe" has done his share in helping to maintain Weston's athletic reputation.

If determination and willingness to work mean anything "Joe" should be a great success and we wish him well.

Dolores Tassinari — Burdett College

"Dolly" — "Oh, Great!"

Dolores is a native of Weston, having arrived on September second, 1928. She has been with us for these twelve long years and has been the emotional stabilizer of the class. Her pastimes are reading and listening to the 920 Club. She likes Perry Como, skiing and going to the movies, the latter of which she does very often. Her pet peeves are: snooty people, report card days and the thought of being separated from Myrtle and Carol.

"Dolly" plans to attend Burdett College and yearns to become a private secretary.

Judging from your "A" report cards and your sunny disposition we know you'll succeed, "Dolly"!

John Van Heest — Springfield College

"Jack" — "Hmm, not bad!"

John, more commonly known to his friends and classmates as Jack was born December 2, 1927. Ever since his arrival in Weston which was in his fifth grade, Jack has been very much interested in sports. In his junior year he was elected Captain of the baseball squad as well as being an excellent guard on the basketball team. Within and outside of school Jack has always found entertainment in girls but not in books. Whenever books become dull there is always at least one girl around to cheer him up.

Jack's desire is to go to Springfield and in the far future become a coach. Best of luck to you Jack in this ambition.

"Nan" — I must listen to the "Lone Ranger".

Nancy arrived in Wakefield, Massachusetts on April 20, 1926. Her family soon moved to Weston where Nancy started her school career. She stayed with us only a short time but returned again in the eighth grade and has been with us ever since.

Nan is the very quiet, domestic type who prefers listening rather than entering into a conversation. Among her diversions are: skating, sliding, movies and listening to the numerous mystery programs. Perhaps her favorite pastime is going to town to art classes

She hopes to take up domestic arts in which she should be very proficient. Best of luck, Nan!

"Jinny" — "Oh, I must wait for Betty"

"Jinny" joined our class in the second grade and has amazed her classmates with her dramatic ability throughout the eleven years with us. Although Jinny was an excellent actress she spent a great deal of time studying, earning the highest standing among the girls of her class. Jinny likes football, dancing, and of course acting. She does not like insincere people, jitterbugging and conceited boys. Next year Jinny hopes to attend Bennington College in Vermont. With her grand personality and various abilities, we are sure that she will be a success at what ever she undertakes. Good luck, Jinny!

David Bullard Whelpley — M.I.T.

"Dave" — "Got a dollar?"

On January 9, 1928, "Dave" Whelpley took his first breath. Ten years later he joined us in the fourth grade. Since that day, Dave has been one of the busiest people we know. He has participated in every known school activity besides taking 5 or 6 subjects a year. We will never forget how true to life he played the part of Fairfax Kisselbergh in 1946's play. Dave has shown much ability being a very important member of our athletic teams in the past three years. He plans to enter M.I.T. after a brief stay in the Army, and on the basis of his past work we are sure he will make it with flying colors.

John Neville White — Harvard

"Whizzer," "Whiz"

John, quite often known as "Whiz," was born February 28, 1928. He entered Wayland schools, and remained there for eight years. It was not until he was to become a Freshman, that he decided to make a change.

During his first years here few realized that some day Whitie would become one of Weston's greatest athletes. He became better acquainted with his classmates in his Sophomore year, and also took more part in class activities. Whitie's Junior year proved to be a colorful one, for he was chosen class president and he became a notable figure in sports. The climax of his extra curricular activities came in his senior year when he became highest scorer in school football in the state of Massachusetts. He was also an outstanding figure in the Eastern Mass. Basketball Tournament, in which Weston was a finalist.

Whitie is planning to attend Harvard.

Charles Spencer Whiting — Harvard

"Pres"

Charles, more commonly known as "Charlie" or "Pres", entered our ranks in the Freshman year and had a high scholastic standing throughout his four years here.

"Pres" comes from Wayland, but doesn't let that bother him, in fact in his first year, his class elected him President. That was a great distinction for any person, especially a Waylandite.

Charlie has always been associated with chemicals. For five years before he took chemistry in Weston he had his own little laboratory in his home.

Charlie did not try sports until his senior year when he earned a letter in football as an outstanding guard.

Carol Wilkie — Rollins

"Sukey," "Mug" — "Don't you ever do your homework?"

Carol, one of our favorite personalities, was born in old Saybrook, Conn. on May 25, 1928. She entered W.H.S. in her Freshman year, and has been with us ever since. Her favorite saying, since the beginning of her senior year has been, "Don't you ever do your own homework?" I wonder why and to whom she says this all the time'!

Among her many likes are: Swimming, merry-go-rounds, Tschaikowsy's music, reading, travel, the color blue, carnations, and Discussion Club. Among her dislikes are: Seafood and math.

After she graduates, she plans to enter Pomona or Rollins.

We all know that Carol, with her pleasing personality, will succeed in whatever she attempts, and we all wish her the best of luck.

Donald Clinton MacRae

"Don," "Mac" — "Miss Green—I never"

On January 21, 1928, Don was born in Waltham, Mass. He remained there several years and then began to travel and went over a large portion of this country. He finally settled in Portland, Maine, where he stayed for nine years, then feeling the desire to return to his home ground, he came to Weston, and joined our class in the Junior Year.

If you ever wish a long discussion on any topic, just present it to Don and he will oblige you.

Don's pet peeve is any subject involving mathematics. Solid Geometry is the worst of all.

Don is apparently headed for the army, which is inevitable, and then he may attend Northeastern University.

John White—leaves his collection of lovely neckties to Frank Parson.

Carol Wilkie—leaves her ability to go about her business quietly to Lucy Leatherbee.

Charles Whiting—leaves his comb with the false teeth to Allan Moore, hoping it will do him more good than it has Pres.

Class Prophecy of '46

Let us imagine it is 1953—the class of '46 is holding its class reunion at the WALDORF ASTORIA AIRPORT, situated in the outskirts of New York City.

The moon is shining brightly upon the planes as they arrive from all places of the earth.

The music of Freddy Crafts all Girl Orchestra is drowned out by the drone of the motors. But then we go inside and this is what we see—that unforgettable, romantic love singer of the air "Buddy" Clive steps to the microphone to sing *It's Been a Long Long Time.* He receives an encore and returns to sing *Little Did I Know (When I Left W.H.S.)*

June Martin who has arrived from El Paso, swathed in a mink wrap, starts dancing with that "tall dark and handsome" man about whom we used to hear. Leave it to Junie to carry out her ideas!!

Zoom-Zooom Zooooooom—Here comes Bev and her Lt. Com. in a brand new blue and white helicopter. Bev is a medical secretary now and is spending her vacation in Booth Bay Harbor, Maine. Hum, that place sounds very familiar!

Looking out of the window whom should we see getting out of his football shaped plane, but Weston's former atomic bombshell Captain Johnny White. With his good-luck helmet from Weston High School, he now plays for Notre Dame—and all the other dames. Yes sir, we knew he would make the grade some way or other. Remember the wonderful plaque the team presented him at the '46 FOOTBALL BANQUET? Those were the days, back at dear old WESTON.

Instead of arriving in a helicopter or plane, so popular nowadays, Limey a bit different from his classmates, in the way of transportation, arrived in his new red motor scooter. He informs us that he is manufacturing them and enjoys demonstrating them to the other sex. Many of our senior girls longed for a ride in the blue one which he had in '46 but, we never did get a ride much to our disappointment. At that time he preferred the "other sex".

At a table in the corner is seated handsome Jack Van Heest, with a be-au-ti-ful—Oh my, need I say more??? Remember, Jack always seemed to fall HARD for blondes! He is a pharmacist at "Ye ole hang out" in Weston. We never thought he would choose that for his career, did we, girls?

Quite a few of the folks are looking out of the window. Guess I'll go over and see what is going on.

CRASH**BOOM CR*****ASH in the middle of the runway, coming from San Diego is none other than that famous Barnum and Bailey clown performer "Moe". I shall never forget those advertising songs which he sang for Miss Harding's English IV-b class. Besides being connected with the circus, Moe has his own radio program over station WEOM every Sunday night at 6:32. So, tune in everyone, and hear your second Bing Crosby.

Following Moe is Myrtle, the "Clown Miss" of our class arriving from Boston where she is the outstanding acrobat for the Ringling Brothers Circus at the Boston Garden. Miss Smith will tell you how Myrt used to demonstrate her trapeze ability on the rings in gym.

During intermission many of our elassmates are arriving from near and far. From Los Angeles eome Lorraine and Anne. Lorraine is fashion designer for Metro. You know the kind who balances all kinds of figures with a brush and not a peneil? Also employed in Hollywood is Anne, the superduper seeretary who spends all her time sitting on the lap of her employer, Frank Sinatra.

From Rio arrive Carol and Bob with a planeful of little Whittemores. After being a flying instruetor for some time, Carol has finally settled down to the more diffieult things of life.

From Mexieo eomes Professor Fred Newell, who has been there sinee graduation, furthering his study of Spanish. Those of you who were in his Spanish elass remember how he loved it!

Betty and Jinny arrive together from Reno where Betty has been on *private* business. Jinny went along to give her moral support and also to ehaperon. We all remember how "Bets" used to roll those big brown eyes! There is not mueh to say about Jinny exeept that she is quite settled down after having been a night elub singer at the Hotel New Yorker here in New York.

Arriving from Hawaii by plane is my twin sister "Sal" with Joe, whom we haven't seen for a year or more. Joe has started a ehair business out on the island and is doing very well. He hopes that with sueh eomfortable ehairs the natives will take to them instead of to the ground. He also tells us that the gals are pretty niee (you need not worry "Sal") When I asked more about them he replied "WHOOPIE". Evidently "Sal" hasn't broken him of that old habit. But tell me do you still ???

"Attention Please". We hear a voiee from the loudspeaker. Walter Henderson Palmer, the sports announeer over station XYPQ has been lost in the vicinity of Irving Road and will be unable to get here unless a eertain Weston girl can find him.

Coming in from her farm in Woodstock, Vermont, is no other than the world's ehampion high jumper, Lois Rinehart. It certainly looked queer to see her without Lueky Boy. She says that he is having the rest whieh he so needed. But, Lois, tell us, do you run the farm all by yourself or do you have a—a—helper?

Why, there's Judge Donald MaeRae, Justiee of the Peaee. Can he still be interested in young ladies' case histories??

Arriving from Chieago is none other but our elass treasurer David Whelpley. Dave is treasurer of The International Whipple Hollow Bank in Chicago. After doing sueh an exeellent job as our elass treasurer, we knew that he'd be sueeessful in obtaining the same position elsewhere. I wonder if he still has to beg for the dough!

Hi-ho Silver! From Arizona arrives Naney in her jet-propelled plane, going fifty miles an hour. I thought that those planes did six hundred or more? Even if they did "Nanee" would take her time. She owns a large raneh there and raises nothing but HOSSES.

The musie stops while we take time out to eongratulate Dolores who has just been appointed private seeretary to the President. We thought that all those hundreds whieh you reeeived from Miss Covell would get you a good secretarial position. And it eertainly did.

Our elass woman-hater, Charley Whiting, is seated on the sidelines trying to explain to Calvin about his latest diseovery; What will happen when C_3H_5 (OH)—$3HNO_3$ unites with $3H_2O$. Charley is one of the great ehemists eonneeted with the atomie bomb projeet. As for Calvin HUBBA HUBBA. He owns the Potter Patriquin Printing Press Company in Waltham, Mass. That is where he used to spend his afternoons, girls—when not talking to Jean.

It is late now, and many of our elassmates are leaving for their destinations. The ADMIRAL is having a great time telling of his exeiting experienees at sea—I must interrupt him, for we have a long way to go. Our houseboat is anehored off the eoast of Norfolk, (as if he hadn't seen enough of the plaee).

GOODBYE EVERYONE AND HAPPY LANDING!!!

CLASS HISTORY

One sunny day in September, the 9th, to be exact, Dolores Tassinari, Joseph Studley, Calvin Patriquin, Walter Palmer, Norman Clive, Ann Colpitts, Lorraine Compton, Betty Hanney, June Martin, and Virginia Wheeler were invited (?) by Miss Adams, the first grade teacher, to spend a fascinating "first day of school", in the first grade. Most of us were caught in her clutches; but Virginia Wheeler managed to squirm out, and wangled her way to California.

During our second year at Weston, we stretched our friendly and welcoming arms out to Charles Morreale. Evidently California was too much for Jinny, because she returned and came tripping into the second grade with us.

Our third year at Weston Primary wasn't very exciting, but David Whelpley came to join us, which, of course, was to our advantage.

By this time, everyone around must have heard how hard the teachers drove us, because during our fourth year, no one joined our group at dear old Weston Grade School.

Lois Rinehart finally gained enough courage to join our crowd in her fifth year of education. Lois always did have a lot of courage!

We, the students of Weston, had been aware of the fact that something had been lacking these five years. So-oooo, what happened? John Van Heest entered our fair school in the sixth grade.

Changing from grade school to Jr. High was a good thing; but even better, Frederic Crafts came drumming his way into the seventh grade with us.

The eighth grade brought us Nancy Weber, but she left us as quickly as she came.

During our Freshman year, we welcomed a number of new students, including Nancy Weber, who decided to string along with us. Among our other new friends were Lyman Parson, John White, Carol Wilkie, Fred Newell, and Charles Whiting.

Beverly Hastings and the Bolster twins decided, during their Sophomore year, to see whether they could really stand the crowd at Weston. Apparently they found they could, because they are still here.

To complete our fine group, Donald MacRae and Myrtle Littlefield, the "Opposites", joined us in our Junior year.

So here we are—the best Seniors there are—about to set forth into the big world and make history for ourselves. We sincerely thank each and every teacher who tried to help us along and who, through kindness and sincerity, "put up" with us through our Primary, Grammar, and High School days.

Student Council — 1945-1946

This year the Student Council managed to accomplish quite a few matters despite the many school activities which took council members away. One of the biggest jobs was its organization for the clothing drive. In assembly, Jan. 23, an appeal was made by a representative of UNRRA, and for two weeks after that, the council, under the leadership of Joe Studley, took charge of publicity, packing, and delivery of the clothes contributed by the high school students. There were over fifty cartons packed and delivered to Weston's UNRRA chairman, Mrs. Allen Wheeler.

Another accomplishment of the council was the drafting of a Constitution for the school. The chairman of the committee was Frank Parson and the other members were Weston Blake and Virginia Wheeler. The Constitution states the representation on the Student Council shall consist of four seniors, four juniors, three sophomores, and two freshmen, and that one of the representatives from each class shall be the class president, a representative can be recalled by a two-thirds vote. After discussions both in assembly and in the home rooms, the Constitution was ratified by the student body.

Another committee organized by the council was the Assembly Committee with David Whelpley as head. This committee worked out the present seating plan in the assembly hall and also arranged for several programs, among them the one which initiated the clothing drive, an assembly for May 1st, Atom Panel talk, was also suggested and planned a Social Committee was organized composed of Fred Crafts, Robert Johnson, and Philip Enholm.

The council worked out the present system in the cafeteria, aided by Tom Simpson and David Whelpley. It organized groups for hospitalized veterans.

A number of school affairs and problems were discussed and worked on, such as: Glee Clubs, Red Cross, grips, locker rooms, traffic in the halls, and music in the cafeteria. The latter was worked out but after a week of experimentation it was discontinued. It is hoped that it can be continued later.

Discussion Club

This year, the bi-monthly Discussion Club meetings were held in the houses of the Cummingses and the Saurwein's. Our first topic, peacetime selective service, was debated hotly by both sides and was carried over through the next three meetings. Our discussion subjects then ranged from Russia and the atom bomb to our own high school spirit. As Sears' Essay time approached, several meetings were devoted to reading and forming conclusions about the topic for this year, governmental control in regard to labor unions.

For the first time since it was started, the Discussion Club was open to the juniors as well as seniors, and we heartily thank the Juniors for their loyal support. We hope their interest will continue next year, and that they will succeed in attaining even better understanding and enjoyment from it than we have.

1945 Football Banquet

Among the many Football banquets held for undefeated football teams of Weston, the '45 Banquet stands out as one of the biggest successes as far as school spirit, pride, and sportsmanship go,—with, of course, a dash of appetite thrown in.

The dinner consisted mainly of quantities of chicken pie, with which the victorious football squads gorged themselves while being entertained with the singing of school songs, (between mouthfuls), accompanied by the piano.

The M.C., Dave Perry, then introduced the guest speaker, Paul Swaffield, who told of the many experiences refereeing football games and occasionally delved into his well-stocked supply of jokes which were appreciated unanimously.

The presentation of the trophy was then made by Capt. White and Coach Law. White himself received a plaque for being the Mass. State High Scorer of the year, in schoolboy football. Seventeen members of the football squad received their letters as did also the manager.

Over 300 townspeople attended this magnificent dinner honoring our undefeated team.

Junior Prom

In a beautifully decorated town hall we gave our Junior Prom in May of 1945, under the direction of Joe Studley.

The decoration committee, headed by Sally Ann Bolster, skillfully planned the arrangement of the queen's throne, which was adorned with white crepe paper and colorful flowers, and was placed in front of the stage. Lawn and terrace furniture arranged for members of the faculty gave an unusually cheerful atmosphere.

Virginia Wheeler, wearing a beautiful black and red evening dress was chosen by the orchestra as queen of the evening, and was awarded a golden crown and a bouquet of red roses. Chosen as members of Jinny's court were: Lucy Leatherbee, Carolyn Robinson, Eleanor Walls, Sallyann Bolster, Bettylou Bolster, and Merithew Hills.

Refreshments were served under the direction of Bettylou Bolster and tickets were in charge of John White. Music was supplied by Art Breckley's Orchestra, and the affair was a great success.

Pirates of Penzance

It was 8:15 P.M., April 11 and 12, 1946. The town house at Weston, Mass. was all lighted up, and inside an expectant audience was waiting. The houselights dimmed. Director William Taunton raised his baton, the pianists began to play, and the curtain went up on the stage. The Weston High School Glee Club was presenting the Gilbert and Sullivan operetta "The Pirates of Penzance".

The rollicking band of pirates in the picturesque uniforms led by their captain, David Whelpley, and his lieutenant, Robert Johnson, lent fine support to the hero, Frederic, one of their band, whose part was masterfully played by Jay Schlaikjer.

Drawn between loyalty to his band and his love for Mabel, Margaret D'Intinosanto, the daughter of a resplendent British Major-General, Joseph Studley, Frederic is the basis of the plot in which police and pirates are embroiled. David Upham, as the doughty sergeant of the police who fought the pirates, did a fine job of comedy work. Among other principals who also gave fine supporting work were: Lois Rinehart as the "piratical maid of all work" and Anne Russell, Marjorie Morgan, and Nancy Flint as Mable's sisters.

The excellent singing of the entire cast and the able supervision of directors Taunton and Zorn resulted in a performance of which the cast should be proud.

"For Her Che-ild's Sake"

With the end of gas rationing and other wartime restrictions, Weston High once more presented its annual play, the first in three years. In the form of an old-fashioned melodrama, the play was reminiscent of plays about forty years ago, in which the heroine received the unwanted attentions of the scheming villain, but was finally saved at a breathtaking moment by the hero. Magnificent performances were given by the entire cast, notable among whom were: Lois Rinehart, as the heroine's domineering sister; David Whelpley, the manly hero; Jay Schlaikjer, the moustache twirling villain; and Virginia Wheeler as Pansy the fair, young heroine.

The cast enjoyed presenting this play as much as the audience seemed to enjoy seeing it, and we thank Mr. Zorn and all the others who made the production possible.

First Row—Irene Havey, Lois Rinehart, Jane Nichols, Betsy Shaw, Jan Palmer, Dorothy Sheehan, Alice Rinehart, Josephine Melone, Betsy Powell, Nancy Flint.

Field Hockey

The Weston girls turned out enthusiastically for hockey practice last fall. Having lost eight of the players on last year's team, we welcomed the great number of girls who came out to strengthen our ranks this year. We were very successful in our games, as the record shows two wins, three ties, and only one loss. The second team, although not so successful as the first, shows promise for the future.

Girls' Basketball

"Build today to make tomorrow", that was the purpose of this year's team. Although we lost most of the members of both the first and second teams last year, the record breaking number of eighty-four girls answered to fill the vacancies. The team played eleven games. Of these, though, it won or tied only three. However, a firm foundation was laid for a winning team next year.

Dorothy Sheehan, the captain, continually urged the team on with her fine playing and spirit. Sally Bolster made an excellent manager and player also. Much credit goes to Miss Smith who did an outstanding job of coaching. To you, Miss Smith, and to the future teams, we wish success.

Football

This year the football team completed a highly successful season, winning seven games, tieing two. Before the season started many people thought that they would not win many games, but once in there, a strong fighting spirit kept the team on top every minute.

The first game was played at Foxboro. The team was inexperienced, but fought hard and deserved a better fate than to have a freak play in the last half minute, tie the score.

The next two games, with Millis and the Cambridge School built up the morale of the team and gave them needed experience. They were all set for the customary Columbus Day game with Howe High of Billerica. This was played on a muddy gridiron with hardly a blade of grass left on the field. The team emerged with a hard fought 0-0 tie.

October 19, Weston walked all over Medfield, and the following week defeated Hopkinton, a team Medfield beat 6-0, by the low score of 13-0.

Next on the list was Westwood, another team which Medfield had beaten. Westwood gave them a score in the first half, but didn't have the reserve strength in the final period.

Ashland, one of the strongest teams Weston had faeed was beaten 21-12 in a thriller. Weston went out to an early 14-0 lead, but Ashland roared right baek and threatened to overeome it. In the last period, however, Weston put on the pressure and scored the deciding touehdown.

The final game of the season was played at Niekerson Field with the traditional rival, Wayland. The team started off slowly, but really went to town in the second half.

Congratulations should go to Captain Johnnie White with his 134 points, for being the highest seorer in the state. Credit should also go to the whole team for their fine all-round work, both offensively and defensively.

Members lost due to graduation this eoming June are: Johnnie White, halfbaek; Freddie Crafts, fullback; Norman Clive, quarterbaek; David Whelpley, taekle; Joe Studley, and Charles Whiting, guards. Although they made up a good part of the team, I'm sure next year's team will make an equally good showing. Sinee many lettermen are returning. Best of luek to Co-Captains Bobby Clapp and Tony Melone with hopes for a sueeessful team.

Basketball

This year's basketball team, captained by "Freddie" Crafts, was very successful. During the regular season we won sixteen straight games. Our greatest achievement was the win over St. Marks of Southboro, 39 to 30.

The first five was made up entirely of seniors. They were Captain "Freddie" Crafts and "Buddy" Clive as forwards. "Johnny" White at center with Walter Palmer and David Whelpley as the guards.

This year, Weston High's winning streak was continued to 39 straight wins only to be stopped at the last game.

Johnny White and Fred Crafts were high scorers, White with 248 point total and Crafts runner up with 224 points. Clive at the other forward had 123.

The opposition was outscored by 708 points for Weston to 393 points for the opponents.

Congratulations also are to be given the second team for the very fine showing that they gave. Tony Melone was the standout in this club.

The record for the regular season is as follows:

TECH TOURNAMENT

After completing an undefeated season, the Basketball squad was invited into the Tech Tournament held at the Boston Garden. The student body turned out exceptionally well for all these games. Our first opponent at the Tournament was Howard High of West Bridgewater. This was a tough game but Weston came out on top 23-17, and moved into the semi-finals. Our next game was with Stetson High of Randolph. Weston won by a score of 38-22 thus going into the finals to meet a highly successful Provincetown team. Here Weston's winning streak was ended by a score of 39-34. However, the members of the Basketball team were awarded rings for being in the finals. The school was awarded a bronze trophy.

The scores were as follows:

Weston—23	17—Howard High	Weston—34	39—Provincetown
Weston—38	22—Stetson High	TOTALS 95	78

Baseball 1945

The baseball team of 1945 just missed having a perfect season. Two losses to our rival, Wayland, were the only black marks on our thirteen game schedule.

Captain Jack Van Heest was our regular pitcher, winning five games and losing two. Freddy Crafts with three wins and no losses, and Fred Newell with two wins and no lossess rounded out our pitching staff. John White left his shortstop berth to chip in one victory in a relief role.

There were five players with batting averages of .300 or better. John White set the pace with a terrific .567. Below is a complete list of the batting averages

Baseball 1946

The team of 1946, captained by Walter Palmer, is looking forward to another successful season, such as the team of 1945 had. Coach Johnny Proctor, who has been in the Navy for three years, is now back and will take over the coaching job at Weston, starting this spring with baseball. The holdovers from the 1945 team are: Walter Palmer, Fred Crafts, Joe Studley, Fred Newell, David Whelpley, Harold Coburn, Frank Parson, Dana Stewart, and John White. Besides these, the 1946 squad includes Albert Waugh, Joe MacDonald, Dana Herbst, Phil Enholm, and Frank Jacques.

Here is the 1946 schedule:
